Unleash the Power of Conversation

Signia Integrated Xperience (IX)
with RealTime Conversation Enhancement

signia

Group Conversation in Noise is Difficult...

- Group conversations in noise are the biggest unmet need for people with hearing loss
- Can lead to frustration, isolation and ultimately withdrawal
- They miss out on the moment, we miss out on their contribution to the conversation

Signia's Integrated Xperience provides a revolutionary three-stage process that puts conversation first.

ANALYZE

Evaluates 192,000 data points every second to build a picture of the listening situation and to understand the environment and conversation needs

AUGMENT

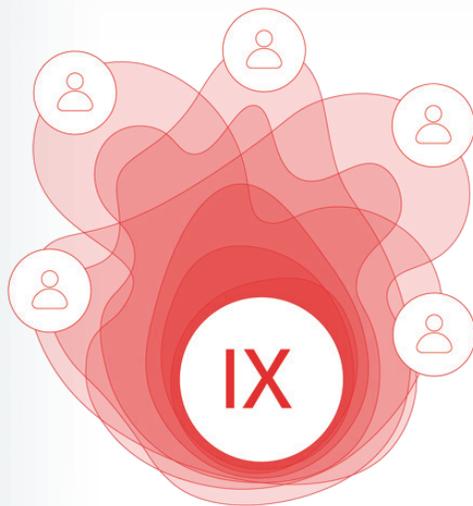

Boosts the voices of all the people in the conversation, helping the wearer to hear them clearly while staying immersed in their surroundings

ADAPT

Updates 1,000 times per second, allowing it to seamlessly adjust in real time as the conversation moves and shifts, ensuring the wearer is always part of the action

Signia Integrated Xperience boasts an impressive 3.2 dB SNR improvement over the nearest competitor in a noisy group conversation scenario.*

*Visit [signia-pro.com/en-us/claims-data](https://www.signia-pro.com/en-us/claims-data) for more details.

Benefits of RealTime Conversation Enhancement*:

A comfortable,
immersive
conversational
experience without
distractions

Access to multiple
speakers via the
world's first multi-
stream architecture¹
with speech that
pops above the
surrounding sound

Keep up and
contribute to the
conversation

*RealTime Conversation Enhancement is not available in all styles and performance levels.

1. Number of focus streams varies per technology level.

2. Visit signia-pro.com/en-us/claims-data for more details

95%

of wearers have better
speech reception with
RealTime Conversation
Enhancement than without.²

Silk Charge&Go IX

The only thing that changes is your hearing

Silk Charge&Go IX – an innovative completely-in-canal (CIC) hearing aid that pairs exceptional sound quality with unmatched discretion.

Power through the day

The convenience of a rechargeable battery for all-day listening. Plus, the accompanying hassle-free case charges wirelessly.

Binaural OneMic Directionality

The only CIC device that offers Binaural OneMic Directionality to focus on a speaker in noisy listening environments.

Battery run time up to 28 hours

Conveniently charge hearing aids up to 4 times on the go.

Unmatched discretion

The soft, textured surface avoids reflections for added discretion.

Immediate fit, immediate impact

The quick, satisfying experience of a ready-to-wear CIC. The Silk Charge&Go IX's small, snug design is discreet and it can be worn immediately.

Control with the app

The user-friendly Signia app and miniPocket remote control allows patients to fine-tune their hearing aids to their unique needs for personalized control anytime, anywhere.

Available Faceplate Colors:

Black

Mocha

Available Performance Levels: 7IX, 5IX, 3IX, 2IX, 1IX, compatible with CROS Silk Charge&Go IX

Silk Charge&Go IX has an IP68 rating ensuring the hearing aids will still function if immersed under 1 m of water for 1h

Insio IX IIC/CIC

Filter out the noise – keep the conversation

Our classic Insio CICs and IICs just got better! Now with a new design and built on our latest platform. Insio IX IIC/CIC is the only custom one-mic hearing aid offering binaural directionality for focused conversation, even in noisy environments.

Advanced clarity

Newly upgraded and meticulously crafted to comfortably enhance speech clarity while in background noise.

Modern tech

Our Binaural OneMic Directionality 2.0 helps focus on speech in noise.

Ultimate discretion

Our smallest custom hearing aids, available in both Completely-in-Canal (CIC) and Invisible-in-Canal (IIC) models.

Enhanced comfort

The new Insio IX IIC/CIC models come with an improved design for a snug, comfortable fit.

Styletto IX has an IP68 rating ensuring the hearing aids will still function if immersed under 1 m of water for 1h (excluding receiver).

Active Pro IX / Active IX

Reconnect with the conversation

Welcome to a new era of hearing with Active Pro IX — a game-changing prescription hearing aid featured in a modern earbud design. Includes RealTime Conversation Enhancement* and portable rechargeability. Fits instantly, enables hands-free calls and streaming, and resists sweat and dust to support an active lifestyle.

All-day power

Wearers receive up to 34 hours of wear time and for added convenience the Qi wireless portable charging case can provide up to 3 full charges on the go.

Bluetooth connectivity

Can be paired to compatible Apple® iOS, Bluetooth LE Audio, and ASHA-supported Android™ devices for direct streaming of audio such as phone calls and music.

Water & dust resistant

Active Pro IX and Active IX are IP68 certified so wearer can enjoy an active life without worrying about sweat, water, or dust.

HandsFree phone calls with CallControl

Patients can answer or end phone calls with a simple tap of the hearing aid enabling HandsFree calling for compatible MFi and Bluetooth LE Audio enabled devices.

About Signia

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.
